

The Middlesex Centre Archives (MCA) is pleased to announce receipt of a \$28,500 grant through the Library and Archives Canada's Documentary Communities Heritage Program (DHCP). This grant will support the professional repair, cleaning and digitisation of early records and photographs from the businesses, industry and personal records of the Society of Friends (Quakers) and the Marsh Store (1862-1955). The original fragile records will be preserved meeting archival standards, and the digitised records will become accessible to the public. MCA is one of 11 recipients in Ontario under this year's DHCP grants.
