5.0 Business Arising

5.1 Deer Collision Initiative Assessment – Future locations for additional signage was discussed. Anne has been working on maps. We will need to request further data from Rob re: collisions – high traffic areas.

Homework to review and discuss at next meeting.

5.3 Crosswalk – Komoka Road -Some people are requesting a crosswalk. Steve Skeaff was going to look into this but we don't know his findings.

Parked cars are a problem on Duke Street by the post office/car repair shop/pizza place.

Suggestion to approach county to request or discuss situation. Factor to consider is the number of youth crossing at the intersection on their way to school. Suggest vehicle count on week days. Ask re: criteria for getting one. Perhaps ask the township re: their criteria for future reference.
