

Meeting Date: July 10, 2024

Prepared By: Rob Cascaden, P.Eng – Director – Public Works and Engineering

Submitted by: Andrew Giesen, C.E.T, PMP – Transportation Manager

Report No: PWE 34-2024

Subject: Precast Culvert Tender Award

Recommendation:

THAT Council receive for information Report PWE 34-2024 re: Precast Culvert Tender Award;

AND THAT Council award the precast culvert tender to Coldstream Concrete Ltd. in the amount of \$139,325.00 (excl HST);

AND THAT the Mayor and Clerk be authorized to execute any necessary purchase agreements with Coldstream Concrete Ltd.;

Purpose:

To inform Council of the tender results of the precast culvert tender.

Background:

In accordance with the corporate Procurement of Goods and Services Policy. Tender RFQ-PWE-2024-02 was publicly tendered via Bids and Tenders for the supply and delivery of two precast culverts and retaining walls.

Following the submission of bids on Thursday, July 4, 2024, tender submissions were reviewed.

Analysis:

Only one submission was received for the precast culvert tender, the results of which can be found below.

Supply & Delivery of Two Precast Culverts and Retaining Walls

Supplier Name	Price (excl HST)
Coldstream Concrete Ltd.	C-572 Ivan Drive \$61,384.00
	C-580 New Ontario \$77,941.00
	Total \$139,325.00

Staff are recommending the purchase of two precast culverts and retaining walls be awarded to Coldstream Concrete Ltd.

Pre purchasing of these critical items will result in lower culvert replacement costs, and an accelerated construction schedule ensuring that the culverts can be replaced as soon as possible. This is especially important for culvert C-572 located on Ivan Drive (between Coldstream Road and Nairn Road) which is currently subject to an emergency load limit of 5 tonnes for public health and safety due to serious cracking in the structure.

Financial Implications:

All costs associated with the purchase of two precast culverts & retaining walls can be accommodated within the Council approved 2024 budget. 24-3121 Culvert C-580 New Ontario \$452,000, & 24-3123 Culvert C-572 Ivan Drive \$452,000.

Strategic Plan:

This matter aligns with following strategic priorities:

- Sustainable Infrastructure and Services

Securing precast culverts and retaining walls will allow for the planned replacement of two deteriorated structures in a cost-effective and efficient manner which will minimize construction impacts and accelerate the construction schedule.
