# **December Budget 2024**

#### Introduction

At the beginning of every month the detailed budget to actual reports are reviewed by the Director of Corporate Services and are provided to each Department and Directors perform a detailed analysis on their accounts.

When looking at the % used column in this analysis, for a 12 month period a monthly average % used would equate to 8.33%, which means for December (12 months) this should be around 100%, however as the Municipality operates on a cash basis, the expenses will be lacking at this time of year due to timing. As one can see from this analysis, few expenses are tracking close to the monthly amount, this is due to many reasons, but mainly due to the timing of processing invoices and expenses.

Additionally, in 2021, staff have removed the Transfer to and Transfer from Reserve Fund accounts from the general Revenue and Expenses analysis, these are reported separately. This will allow Council and the public to get a clearer picture of the department performance.

One item to note is that the legal costs in 2024 are expected to be significantly overbudget due to a development legal issue. Staff have implemented a strategy of cost containment measures in other departments to ensure this does not result in a deficit for the Municipality for 2024.
