**Attention Planning Department**

**Re: Condominium Application on 10915, 10929 and 11157 Longwoods Road**

Dear Sirs:

The information provided in the Middlesex Centre Notice of Public Meeting regarding 10919 Longwoods Road includes an Infiltration Stormwater Pond. I am quite concerned about this method of dealing with the stormwater runoff as this is in a groundwater source protection area and we have a shallow dug water well for our domestic water supply.

I'd like to know what studies and analysis have been completed to ensure that the quality and quantity of the water supply to our shallow well will not be affected by this proposal.

Sincerely,

3603 Carriage Road
